To Whom It May Concern:

Our Company has had the pleasure of doing business with Alpha Construction for the last 45 years. They have always operated in a professional and ethical manner and have successfully produced numerous affordable housing projects over that period of time.

They come highly recommended by Owners, Architects, Subcontractors and Construction Managers who are all appreciative of Alpha's attention to detail and its pride in producing a "better-than-most" product.

Sincerely,

Sam Deutsch
Owner
