Alpha Construction

July 12, 2011

To: Whom this may concern.
Re: Notice of Reference and Recommendation.

MacFarlane Electric has had the privilege of being an Electrical Sub-Contractor to Alpha Construction for approximately 25 years.

We have professionally worked together with Alpha Construction on numerous projects, to name several; Mariposa Place Apartments (recently completed), Saticoy Gardens, Skyline Village, Havenhurst, Baldwin Park Family Housing, Olive Manor, Bird Park & Beacon Street (on Catalina Island), as well as many others.

Alpha Construction has always taken great pride in the service they provide to their clients as well as their sub-contractors. We have found over the years their quality team of sales, project management, superintendents, etc. have always come through on behalf of their clients as well as their sub-contractors.

MacFarlane Electric has always been treated fairly and in a professional manner, there is not a project or request by Alpha Construction that we would ever turn down and we are glad to be a part of their team.

May you request any additional information we would be happy to speak on their behalf.

Sincerely,

William H. Anderson
President
