Re; Alpha Construction

To Whom It May Concern,

I have worked with Alpha construction for the last 16 months on the Villas at Gower project. Throughout the course of construction, Alpha employees displayed a high level of professionalism, experience, dedication and commitment to quality. Alpha did a good job of cultivating a teamwork oriented atmosphere and worked well with the project team to find solutions to problems and overcome numerous challenges during the course of construction. Alpha understands many of the unique rules, regulations and procedures that come along with affordable housing developments and does a good job of providing all necessary paperwork.

I highly recommend Alpha Construction as a General Contractor. ACOF has worked with Alpha on numerous projects, and has selected them as the General Contractor on two projects which have just broken ground. Please feel free to contact me with any questions or to further discuss my experience working with Alpha.

Sincerely,

Ben Rosen
Senior Project Manager
