RE: Letter of reference for

Alpha Construction Company, Inc.
14601 Aetna Street
Van Nuys, CA 91411

I have worked with Alpha Construction for five years on multi-family housing projects in Southern California and have found them to be an honest and hard working general contractor. During construction they have always been fair, thoughtful, and thorough. It has been easy to develop a team approach to the construction process with them. As an architect, I value this type of relationship with the general contractor.

Also, they have been a good source of information during the design of a project. They have always been available to provide help with construction issues before they become construction problems.

I would highly recommend Irv Laxineta and his group on any construction project.

Signed,

David Lewis, AIA
